

QUALITY AND ENVIRONMENTAL POLICY

H O F F M A N N

Kovovýroba HOFFMANN s.r.o. tries to provide its customers with products/services of superior quality and also stays friendly with the environment.

Quality Policy

We try to supply our customers with superior quality products and services to obtain and keep competitive advantages as well as strong position in automotive industry markets. To be able to achieve the company's strategic objectives, we pay a great attention to employing highly qualified personnel in all positions – a team consisting of professionals who continuously participate in further education and training.

Environmental Policy

We follow the law and rules regarding the environment but we also try to act even beyond the scope of these requirements. By carrying out the periodic check-ups, we strive to minimize the negative impacts of all processes on environment and to prevent the possible accidents to occur to the maximum extent. Last but not least, we try to save finite natural resources in all of our activities.
